

# Online Zoom Meeting Hosting Guidelines

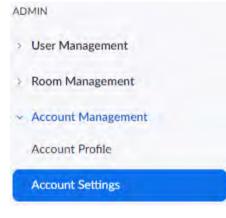

*Purpose: to protect everyone's anonymity, ensure smooth running of meetings, protect data & privacy.* 

## 1.Zoom settings

(needs to be done only once per account prior to setting up a meeting, not before every meeting)

On the Zoom website, log in with the account you use to host meetings. We suggest making settings in two areas; settings under your user profile and the admin account.

 a. Navigate to ADMIN -> ACCOUNT MANAGEMENT -> ACCOUNT SETTINGS

b. In the center page you should now see the three tabs: Meeting (in blue), Recording, Telephone.

| PERSONAL | Meeting | Recording | Telephone |
|----------|---------|-----------|-----------|
| Profile  |         |           |           |

c. Under the Meeting tab set the sliders according to the following:

| Host video   But meetings with host video on   Participants video   Cation Street   Auton Street   One Street on Computer Auto   Image: Street on S  |   |
|--|---|
| Participants video   Start meetings with participants can ploin the audio portion of the meeting. When joining audio, you can let them choose to use their compater microphonofecasier or use a telephone. Wo can abount them to hips and to may take a start participants can ploin the audio portion of the meeting. When joining audio, you can let them choose to use their compater microphonofecasier or use a telephone. Wo can abount them to hips and to may take a start participants follow the instructions you provide for using non-Zoom audio.   Image: The phone and Compater Audio   Image: The phone and Compater Audio   Compater Audio   Image: The phone and Compater Audio   Compater Audio   Audio participants to ploin the meeting before the host arrives:   Use Personal Meeting ID (PMI) when scheduling a meeting.   Use Personal Meeting ID (PMI) when starting an instant meeting.   Ordy authenticated users can join meetings from Web client.   The participants need to authenticate prior to joining the meetings, hosts can choose one of the authentication meeting.   Mol authenticated users can join meetings from web client.   The participants need to authenticate prior to joining meetings from web client. | Calendar and Contact Integration  |            |
| Integrate your calendar and contact service, such as Google account, Outlook, or Exchange with Zoom client. 😥   |            |

| Office 365 users can consent to enterprise applications accessing company data on their behalf  |   |
|---|---|
| If turned off, the Office 365 administrator will need to consent to calendar integrations on behalf of the company.<br>As an administrator, please choose the same settings configured in Office 365. View the settings on Office 365 |   |
| Upcoming meeting reminder   |   |
| Receive desktop notification for upcoming meetings. Reminder time can be configured in the Zoom Desktop<br>Client. 🝘  |   |
| Enforce to use OAuth 2.0 only for authenticate Office365 calendar integration   |   |
| Enabling this setting will force users and Zoom Rooms to authenticate calendar service  |   |
| In Meeting (Basic)  |   |
| Require Encryption for 3rd Party Endpoints (H323/SIP)   |   |
| Zoom requires encryption for all data between the Zoom cloud, Zoom client, and Zoom Room. Require encryption for 3rd party endpoints (H323/SIP).  |   |
| Chat  |   |
| Allow meeting participants to send a message visible to all participants  |   |
| Prevent participants from saving chat 😥   |   |
| Private chat  |   |
| Allow meeting participants to send a private 1:1 message to another participant.  |   |
| Auto saving chats   |   |
| Automatically save all in-meeting chats so that hosts do not need to manually save the text of the chat after the<br>meeting starts.  |   |
| Play sound when participants join or leave  |   |
| Play sound when participants join or leave  |   |
| File transfer   |   |
| Hosts and participants can send files through the in-meeting chat. $\overline{\mathcal{P}}$   |   |
| Feedback to Zoom  |   |
| Add a Feedback tab to the Windows Settings or Mac Preferences dialog, and also enable users to provide<br>feedback to Zoom at the end of the meeting  |   |
| Display end-of-meeting experience feedback survey   |   |
| Display a thumbs up/down survey at the end of each meeting. If participants respond with thumbs down, they can provide additional information about what went wrong. $\overline{w}$   |   |
| Co-host   |   |
| Allow the host to add co-hosts. Co-hosts have the same in-meeting controls as the host.   |   |
| Polling   |   |
| Add 'Polls' to the meeting controls. This allows the host to survey the attendees. $\overline{\mathbb{C}}$  |   |
| Always show meeting control toolbar   |   |
| Always show meeting controls during a meeting 😥   |   |
| Show Zoom windows during screen share 🕝   | • |
| Screen sharing  |   |
| Secon sharing   |   |

#### Who can share?

O Host Only O All Participants (?)

#### Who can start sharing when someone else is sharing?

O Host Only All Participants ()

| Disable desktop/screen share for users   |   |
|--|---|
| Disable desktop or screen share in a meeting and only allow sharing of selected applications.  |   |
| Annotation   |   |
| Allow participants to use annotation tools to add information to shared screens 🕑  |   |
| Whiteboard   |   |
| Allow participants to share whiteboard during a meeting 😥  |   |
| Remote control   |   |
| During screen sharing, the person who is sharing can allow others to control the shared content  |   |
| Nonverbal feedback   |   |
| Participants in a meeting can provide nonverbal feedback and express opinions by clicking on icons in the Participants panel. 🕢  |   |
| Allow removed participants to rejoin   |   |
| Allows previously removed meeting participants and webinar panelists to rejoin 🗑   |   |
| Allow participants to rename themselves  |   |
| Allow meeting participants and webinar panelists to rename themselves. 🝘   |   |
| Hide participant profile pictures in a meeting   |   |
| All participant profile pictures will be hidden and only the names of participants will be displayed on the video screen. Participants will not be able to update their profile pictures in the meeting.   |   |
| In Meeting (Advanced)  |   |
| Breakout room  |   |
| Allow host to split meeting participants into separate, smaller rooms  |   |
| Remote support   |   |
| Allow meeting host to provide 1:1 remote support to another participant  |   |
| Closed captioning  |   |
| Allow host to type closed captions or assign a participant/third party device to add closed captions   |   |
| Save Captions  | • |
| Allow participants to save fully closed captions or transcripts  |   |
| Far end camera control   |   |
| Allow another user to take control of your camera during a meeting.  |   |
| Group HD video<br>Activate higher quality video for host and participants. (This will use more bandwidth.)   |   |
| Activate higher quality video for host and participants. (This will use there bandwidding  |   |
| Virtual background   |   |
| Allow users to replace their background with any selected image. Choose or upload an image in the Zoom Desktop application settings.   |   |
| Identify guest participants in the meeting/webinar   |   |
| Participants who belong to your account can see that a guest (someone who does not belong to your account) is participating in the meeting/webinar. The Participants list indicates which attendees are guests. The guests themselves do not see that they are listed as guests. 🝞 |   |
|  |   |

version 17042020

| Auto-answer group in chat  |      |
|--|------|
| Enable users to see and add contacts to 'auto-answer group' in the contact list on chat. Any call from members of this group will be automatically answered.   |      |
| Peer to Peer connection while only 2 people in a meeting   |      |
| Allow users to directly connect to one another in a 2-person meeting.  |      |
| Only show default email when sending email invites   |      |
| Allow users to invite participants by email only by using the default email program selected on their computer   |      |
| Use HTML format email for Outlook plugin   | •    |
| Use HTML formatting instead of plain text for meeting invitations scheduled with the Outlook plugin  |      |
| DSCP marking   |      |
| Determine classification for network traffic. Enable DSCP marking for signaling and media packets. (Default is 56 for audio, 40 for video, and 40 for signaling.) 😨  |      |
| Allow users to select stereo audio in their client settings  |      |
| Allow users to select stereo audio during a meeting  |      |
| Allow users to select original sound in their client settings  |      |
| Allow users to select original sound during a meeting  |      |
| Waiting room   |      |
| Attendees cannot join a meeting until a host admits them individually from the waiting room. If Waiting room is enabled, the option for attendees to join the meeting before the host arrives is automatically disabled. $\heartsuit$  |      |
| Choose which participants to place in the waiting room:  |      |
| • All participants   |      |
| Guest participants only ①  |      |
| Show a "Join from your browser" link   | ۵ () |
| Allow participants to bypass the Zoom application download process, and join a meeting directly from their browser. This is a workaround for participants who are unable to download, install, or run applications. Note that the meeting experience from the browser is limited |      |
| Allow live streaming meetings  |      |
|  |      |
| Allow Skype for Business (Lync) client to join a Zoom meeting<br>Allow internal or external Skype for Business (Lync) client to connect to a Zoom meeting. Learn more  |      |
| Email Notification   |      |
| When a cloud recording is available  |      |
| Notify host when cloud recording is available  |      |
| When attendees join meeting before host  |      |
| Notify host when participants join the meeting before them   |      |
| When a meeting is cancelled  |      |
| Notify host and participants when the meeting is cancelled   |      |
| When an alternative host is set or removed from a meeting  |      |
| Notify the alternative host who is set or removed  |      |
| When someone scheduled a meeting for a host  |      |
| Notify the host there is a meeting is scheduled, rescheduled, or cancelled   |      |

| When the cloud recording is going to be permanently deleted from trash  |            |
|---|------------|
| Notify the host 7 days before the cloud recording is permanently deleted from trash   |            |
| When the meeting duration exceeds the limit   |            |
| Notify the specified users when the meeting duration exceeds the limit  | _          |
| Admin Options   |            |
| Blur snapshot on iOS task switcher  | <b>(</b> ) |
| Enable this option to hide potentially sensitive information from the snapshot of the Zoom main window. This<br>snapshot display as the preview screen in the iOS tasks switcher when multiple apps are open. |            |
| Display meetings scheduled for others   |            |
| If disabled, users will only see their meetings even if they have schedule-for privilege for others   |            |
| Use content delivery network (CDN)  |            |
| Allow connections to different CDNs for a better web browsing experience. All users under your organization will<br>use the selected CDN to access static resources.  |            |
| Allow users to contact Zoom's Support via Chat  |            |
| Show Zoom Help badge on the bottom right of the page  |            |
| Show one person meetings on Reports   |            |
| Meetings with only one person will also be displayed on reports.  |            |

### d. Still in the ADMIN settings navigate to the RECORDINGS tab

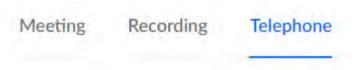

### e. set the sliders according to the following:

| Local recording<br>Allow hosts and participants to record the meeting to a local file  | •    |
|--|------|
| Cloud recording<br>Allow hosts to record and save the meeting / webinar in the cloud   |      |
| Automatic recording<br>Record meetings automatically as they start   |      |

h. Navigate to PERSONAL-> SETTINGS -> Meetings

| PERSONAL   | Meeting               | Recording | Telephone |
|------------|-----------------------|-----------|-----------|
| Profile    |                       |           |           |
| Meetings   | Schedule Meet         | ting      | Schedule  |
| Webinars   | In Meeting (Ba        | isic)     | Host vid  |
| Recordings | In Meeting (Advanced) |           | Start mee |
|            | Email Notificat       | tion      |           |
| Settings   | Other                 |           | Participa |

i. Verify/Set all of the above Meeting, Recording and Telephone settings (a. - g.) here as well.

### 2. Meeting Setup

- Topic
  - Choose a meeting name that preferably does not include AA. This is for added anonymity if attending meetings in public spaces

- Disable: Registration
- Password: select require meeting password
- Video:
  - Enable Video OFF for Host and Participants (it means video is switched off when host or participant joins the meeting but can be turned on after that)
- Audio:
  - Enable: Both
    - Click Edit to update the country list if needed.
- Meeting Options:
  - Disable: Enable join before host (*This prevents people from joining the group before a host logs in. See "Enable Waiting Room"*)
  - Enable: Mute participants upon entry
  - Enable: Enable Waiting Room (helps you see who is trying to enter your meeting by placing them in a separate area at the top of your participants list until you let them into the main meeting. It also prevents you from getting flooded with disruptive people because it gives you a pre-emptive chance to see who is trying to enter your meeting. Wouldn't it be nice to be able to stop someone from naming themselves, say, "GateKrasherFU" or keep known bad actors from even entering your meeting at all in the first place? You'd also probably not want a participant with a naked or pornographic profile pic... Waiting Room let's you do just that. You're not going to catch everybody, of course but even that occasional bad actor that does get in won't be able to unmute themselves, upload files, take over screen share or chat anyway. And who knows, maybe they might even get sober? Of course, nothing prevents them from raising their hand and once called upon to start their obscene gibberish, but at least it's only one person, very easy to ban and not let back in for the rest of the meeting. Just like what happens at real meetings sometimes.)
  - Disable: Only authenticated users can join

## 3. Suggested practices during a meeting

• Ask someone to be your Co-Host (suggest 1 co-host per 20 participants)

This is a great way to do service.

To make a participant co-host select their name in the participant list, click on MORE and make them co-host.

Suggest host and co-hosts to divide tasks, prior to the meeting commencing:

- admitting participants into the meeting and scanning usernames, potentially refusing to admit on the basis of offensive usernames or profile pictures.
- monitor video feeds
- manage participants (rename, remove...)
- monitor chat (host only)
- change chat to host only in the event of an attack (host only)
- Disable: User Rename

A bad actor can post something nasty in your chat and then quickly rename themselves. Their posted chat will retain the old name but they will already be cloaked with their new name as you try to find them and ban them.

|          |            | Mute Participants on Entry                                  |
|----------|------------|---|
|          |            | <ul> <li>Allow Participants to Unmute Themselves</li> </ul> |
|          |            | Allow Participants to Rename Themselves                     |
|          |            | <ul> <li>Play Enter/Exit Chime</li> </ul>                   |
|          |            | Lock Meeting  |
| A        | 16-10-010  |   |
| Mute All | Unmute All | More ~  |

#### • Video participation and names

Some may not have their video on. Using Video is not compulsory and participants are free to use whatever name they please. We suggest participants use video for an immersive experience for everyone.

We suggest participants type their name into the system when they join. It can be checked on their own screen and in the participant list. We suggest the host say and/ or writes via chat message before meeting starts :

"Using video during the meeting is your personal choice. We encourage you to enable video for a better meeting experience. We ask that you check your Zoom screen and/or participant box for your current username. Especially if it shows 'iphone' 'samsung' ... etc., contact the host via the chat box or introduce yourself before the meeting requesting the host to rename you. The rename feature has been disabled for participants for security reasons. Before your next meeting we encourage you to learn how to name yourself ahead of joining. Here is a short How-To guide https://bit.ly/34r1ES7.'

#### Participation calls via Landline

Dialed in participants may not be able to mute/unmute themselves because their (landline) phone doesn't support it or they may be visually impaired. It is suggested that hosts ask the caller whether they can unmute themselves. If not they stay unmuted if at all possible throughout the entire meeting or suggest to keep them muted until invited by the host to share. Definitely ask them to introduce themselves so you can rename them in the participant box.

### 4. What to do if a meeting is attacked

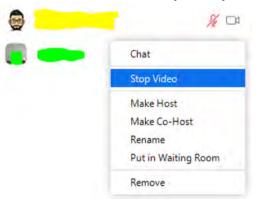

Expect explicit, obscene porn, lewd images, foul language and verbal abuse (often directed at the lead/chairperson to invoke chaos). First and foremost, remain calm, having expected to experience this. Shock is their primary goal. If you are calm, you can act quickly and decisively instead of react.

Having already blocked their ability to video-share and send files which is their primary weapon, the only thing that intruders can do now is post in the chat, show live video from their device, and/or verbally abuse, which they seem to like to do in gangs of many in order to rapidly overcome a meeting. Depending on whether the abuse is mainly verbal or video start taking action:

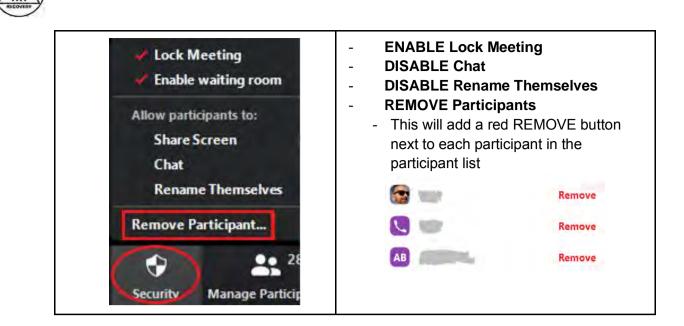

1. **Mute ALL** quickly go over to the participant list and immediately click the "Mute All" button. In the popup window unselect 'Allow Participants to Unmute Themselves'.

2. **Stop their video** go to the participant list and click MORE on their name (if their main offence is video you may want to do this first)

3. Click the Security button at the bottom of your Zoom Window

- 4. This essentially gives Zoom-bombers no reason to stay on at this point, and they likely will start dropping once they see that you know how to take away their ability to disrupt a meeting. Under normal meeting circumstances, you want members to be able to mute and unmute themselves in order to engage more naturally with the group as we would in face-to-face meetings, so blocking attendees from unmuting themselves should be a temporary action until the intruders have left.
- 5. Feel free at any time, unmuting yourself and your co-hosts, to inform the audience what you're doing (while attendees remain force-muted, things tend to get awkward), putting a temporary hold on the meeting while the problem is being addressed. Let them know to **please raise their hand** if they wish to speak and that the meeting will restart shortly.
- 6. During this hold period, have your co-host(s) along with you, click on "Participants", go through and "**Remove**" all the obviously bad actors. You can also distinguish most of them from the names or images they post for themselves. Sometimes they will have video on, being their only chance left to show a shock video, with the camera pointing somewhere random like a ceiling fan. If you are unsure and don't want to drop someone who may be an actual AA member, unmute them and request that they identify themselves. Trolls either won't identify or they will say something making it obvious they are a troll, or they'll just stay silent or drop altogether.
- 7. Once you've experienced this a few times, it will be easier and troll groups will find your meeting "no fun" and will move on. If we get enough of our groups shutting them down, they will stop having any reason to Zoom-bomb our AA meetings.
- 8. Once all culprits have been successfully dealt with, feel free to allow participants to **unmute themselves** again and **re-enable the chat**.
- 9. Keep the meeting locked to prevent culprits from joining the meeting again. Anyone who wants to join and finds a meeting locked can communicate this in the WhatsApp group chat.
